Programat P500 & P500/G2

Software Revision Log

Version	Changes from previous version	Status
V7.1 01.10.2014	**Software optimized** - New programs for IPS InLine powder opaquer - Various software improvements	**Currently** delivered version
V7.0 05.05.2014	**Software optimized** - New service interval indicator - Various software improvements - New, special speed crystallization program for IPS e.max CAD (P85): The new program replaces the existing IPS e.max CAD Speed Crystallization. The program may only be used in conjunction with the IPS e.max CAD Speed Crystallization Tray (article code 647633AN). Please observe the processing information for the IPS e.max CAD Speed Crystallization.	**No** longer available!
V6.0 04.04.2011	**Software optimized** - New Ivoclar Vivadent Programs for IPS InLine One (Programs 121 – 126) - New Ivoclar Vivadent Programs for IPS e.max CAD-on (Programs 83 – 84)	**No** longer available!
V5.0 15.04.2010	**New Software P500/G2: Software optimized and new features:** - New icons and optimized user interface - Power Saving Technology - TSP: Thermo Shock Protection - CSP: Cooling Shock Protection - New program-structure: Ivoclar Vivadent and individual programs - Ivoclar Vivadent firing parameters were changed	**No** longer available!
V3.1 15.01.2008	**Software optimized and new functions** - Updated Ivoclar standard firing programs P1-P120 - New SW update via USB memory stick possible - New function: Preparing the memory stick as external program memory	**No** longer available!
V2.2 05.02.2007	**Software optimized** Adjustment of the parameters in the programs (P23 and P24)	**No** longer available!

V2.0 14.06.2006	**Software optimized and new functions** - New representation of group and program names - Information line regarding the current program status - Extended information in the footer - New symbols and new writing functions - Improved sound reproduction - New error description - Improved memory stick recognition	**No** longer available!
V1.6 23.02.2006	**Software optimized and new functions** - Editing of numeric values by means of the +/- keys will speed up if the key is pressed longer - Adjustment of the parameters in the programs (P15 and P16)	**No** longer available!
V1.5 23.12.2005	**Software optimized**	**No** longer available!
V1.03 16.11.2005	**Software optimized**	**No** longer available!
V1.02 20.10.2005	**Software optimized** Touch function improved	**No** longer available!
V1.01 13.10.2005	**Software optimized** Firing parameters were changed	**No** longer available!
V1.00 22.09.2005	**Basic version**	**blocked**

Version: 01.10.2014
