Helioseal<sup>®</sup>  
F Plus

Fissure sealant

# Fast and comfortable fissure sealing for children

Helioseal F Plus is an efficient light-curing, white composite resin fissure sealant with fluoride-releasing properties. The product forms a tight seal and effectively protects the tooth from cariogenic germs.

- 
- ✓ Helioseal F Plus is flowable, and it is easy to spread on complex contours such as pits and fissures – even in the upper jaw.
  - ✓ Used in conjunction with a suitable polymerization light, such as Bluephase Style or Bluephase G4 from Ivoclar, Helioseal F Plus can be cured in only ten seconds.
  - ✓ The convenient slender syringe dispenses the correct amount of sealant exactly where it is needed.
  - ✓ The fine cannula enables you to place the product swiftly and exactly without overfilling the fissures.
  - ✓ The fine fillers contained in the product ensure a smooth surface seal.

# Our solution for when you have to seal the teeth of children quickly, effectively and comfortably

## Relative isolation

Comfortable relative isolation with Optragate Junior.

## Cleaning

Efficient and gentle cleaning with Proxyl fine.

## Sealing

Efficient, fast and comfortable fissure sealing with Helioseal F Plus.

## Fluoridation

Superior protection against dental caries and erosion with Fluor Protector S<sup>[1-4]</sup>.

## Fluoridation and protection

Fluoridation and germ control in children who wear orthodontic appliances with Cervitec F.
