

SAFETY DATA SHEET (GHS)

Issue Date: 31.03.2019
Version: 1.0.1
Revision Date: 31.03.2024
Print Date: 31.03.2019

1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE/PRODUCT AND MANUFACTURER/IMPORTER

- 1.1 Product identifier:-**
Product name: Universal Polishing Paste
Product number: 573660
- 1.2 Other means of identification:-**
 Not applicable.
- 1.3 Recommended use of the chemical and restrictions on use:-**
 Not applicable.
Identified uses: Polishing agent/burnishing compound.
- 1.4 Details of the manufacturer and importer:-**
Manufacturer: Ivoclar Vivadent AG
 Bendererstrasse 2 FL-9494 Schaan
 Principality of Liechtenstein
 Tel: + 423 235 35 35 Fax: + 423 235 33 60
Importer: Ivoclar Vivadent Ltd
 12 Omega St, Rosedale, Auckland, New Zealand
 Phone +64 9 914 9999 Fax +64 9 914 9990
 www.ivoclarvivadent.co.nz
- 1.5 Emergency phone number:** 0800 764 766 (National Poison Centre)
 Poisons Hotline (24 hours / 7 days)

2. HAZARD(S) IDENTIFICATION

- 2.1 GHS Classification:-**
 Eye Irrit. 2 H319 Causes serious eye irritation.
- 2.2 GHS Label elements, including precautionary statements:-**
Hazard Pictogram:

GHS07

0

Signal word: Warning
Hazard-determining components of labelling: Void
Hazard statements: H319 Causes serious eye irritation.
Precautionary statements: P280 Wear eye protection / face protection.
 P337+P313 If eye irritation persists: Get medical advice/attention.

Additional information:-
 EUH066 Repeated exposure may cause skin dryness or cracking.

- 2.3 Other hazards:-**
Results of PBT and vPvB assessment: **PBT:** Not applicable.
vPvB: Not applicable.

3 COMPOSITION/INFORMATION ON INGREDIENTS

Ingredient name	CAS No.	Classification	Concentration
Naphtha (petroleum), hydrotreated heavy	64742-48-9	Asp. Tox. 1 - H304 Eye Irrit. 2 - H319 Skin Sens. 1 - H317	25-50%
Ammoniumoleat	544-60-5	Eye Irrit. 2 - H319	≤10%
Ammonia	1336-21-6	Skin Corr. 1B - H314 Aquatic Acute 1 - H400	0.1-<1%
Non-hazardous ingredients	N/A	N/A	to 100%

For the full text of the H-Statements mentioned in this Section, refer to Section 16.

4. FIRST AID MEASURES

4.1 Description of necessary first aid measures:-

General advice:

Remove contaminated clothing and shoes immediately and launder thoroughly before reusing.
First aid facilities include first aid rooms and medical centres.
If a risk assessment determines that a first aid room or medical centre is not needed, a rest area within the workplace may be suitable to assist an injured or ill person.

If inhaled:

Ensure supply of fresh air.
Remove affected person from the immediate area.
Keep patient warm. Consult doctor if symptoms persist.
In case of unconsciousness place patient stably in side position for transportation.

In case of skin contact:

Wash off immediately with water.
If skin irritation continues, consult a doctor.

In case of eye contact:

Remove contact lenses, irrigate copiously with clean, fresh water for at least 15 minutes holding the eyelids apart and seek medical advice.

If swallowed:

Do not induce vomiting.
Rinse mouth thoroughly with water.
Let plenty of water be drunk in small gulps.
Never give anything by mouth to an unconscious person.
Call a doctor immediately.

4.2 Symptoms caused by exposure:-

Please refer to section 2.2 and section 11.

4.3 Medical attention and special treatment:-

If swallowed or in case of vomiting danger of entering the lungs.

5. FIRE FIGHTING MEASURES

5.1 Suitable extinguishing equipment:-

Suitable extinguishing media:

Carbon dioxide, powder or water spray.
Fight larger fires with water spray or alcohol resistant foam.

Unsuitable extinguishing media:

Water with full jet.

5.2 Specific hazards arising from the substance/mixture/product:-

During heating or in case of fire poisonous gases are produced.

5.3 Special protective equipment and precautions for fire fighters:-

Special personal protective equipment:

Do not inhale explosion gases or combustion gases.
Wear self-contained respiratory protective device.

Precautions:

Cool endangered receptacles with water spray.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures:-

Wear protective equipment. Keep unprotected persons away.
Use of suitable equipment (incl PPE) to prevent contamination of skin, eyes, clothing, removal of ignition sources, ventilation, emergency procedures (eg. evacuate, consult expert).
Particular danger of slipping on leaked/spilled product.

6.2 Environmental precautions:-

Do not allow to enter sewers/surface or ground water.

6.3 Methods and materials for containment and cleaning up:-

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
Dispose contaminated material as waste according to item 13.
Ensure adequate ventilation.

7. HANDLING AND STORAGE

7.1 Precautions for safe handling:-

No special measures necessary if stored and handled as prescribed.
Only adequately trained personnel should handle this product.
For use in dentistry only.
Ensure good ventilation/exhaustion at the workplace.
Keep ignition sources away – do not smoke.
Protect against electrostatic charges.
Wash hands before breaks and after work.
Do not eat, drink or smoke during work time.
Remove soiled or soaked clothing immediately.
Keep away from foodstuffs and beverages.

7.2 Conditions for safe storage, including any incompatibilities:-

Keep only in the original container.
Containers which are opened must be carefully closed and kept upright to prevent leakage.
Keep container tightly sealed.
Store in cool, dry conditions in well-sealed receptacles.
Store away from oxidising agents.
Store receptacle in a well ventilated area.
Recommended storage temperature for storage rooms and vessels is 20 - 30°C.
Protect from frost.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Exposure control measures:-

Occupational exposure limits:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Ingredients with biological limit values:

Exposure should be kept to as low as practicable and below the AOES.

8.2 Biological monitoring:-

Assess in accordance with exposure limits – please refer to section 8.1.

Exposure controls / Personal protective equipment / General protective and hygienic measures:

Usual hygienic measures for dental practice.
Wash hands before breaks and at the end of work.
Keep away from foodstuffs, beverages and feed.
Immediately remove all soiled and contaminated clothing.
Avoid contact with the eyes and skin.

8.3 Control banding:-

Use good industrial hygiene practice and general ventilation.

8.4 Engineering controls:-

In case of intensive contact, wear protective gloves (EN 374).
Before use, the protective gloves should be tested in any case for its specific work-station suitability (i.e. mechanical resistance, product compatibility and antistatic properties).
Adhere to the manufacturer's instructions and information relating to the use, storage, care and replacement of protective gloves.

Protective gloves shall be replaced immediately when physically damaged or worn.

8.5 Individual protection measures include PPE:-

Eye/face protection:

Skin protection:

Respiratory protection:

Safety glasses

Use tightly fitting safety glasses as per Australian Standard AS 1336 and AS/NZS 1337.

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Material of gloves

Butyl rubber, BR.

Fluorocarbon rubber (Viton).

PVA gloves.

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Provide for good ventilation of working area (local exhaust ventilation, if necessary).

In case of brief exposure or low pollution use respiratory filter device.

In case of intensive or longer exposure use self-contained respiratory protective device.

9. PHYSICAL/CHEMICAL PROPERTIES

9.1 Information on physical/chemical properties:-

- a) **Appearance/Form:** Pasty.
- b) **Colour:** Pink.
- c) **Odour:** Like ammoniac.
- d) **Odour threshold:** Not determined.
- e) **pH value at 20°C:** 9.5 – 11.4.
- f) **Melting point/melting range:** Undetermined.
- g) **Boiling point/boiling range:** >100°C.
- h) **Flash point:** Not applicable.

- i) **Ignition temperature:** Not applicable.
- j) **Self-igniting:** Product is not self-igniting.
- k) **Danger of explosion:** Product does not present an explosion hazard.
- l) **Upper/lower flammability or explosive limits:**

Lower	Not determined.
Upper	Not determined.
- m) **Vapour pressure:** Not applicable.

n)	Density at 20°C:	1.13 – 1.17 g/cm ³ .
o)	Relative density:	Not determined.
p)	Vapour density:	Not applicable.
q)	Evaporation rate:	Not applicable.
r)	Solubility in/miscibility with water:	Dispersible.
s)	Partition coefficient: n- octanol/water:	Not determined.
t)	Viscosity:	Dynamic Not applicable. Kinematic Not applicable.

10. STABILITY AND REACTIVITY

10.1 Reactivity:-

No further relevant information available.

10.2 Chemical stability:-

Stable under normal handling and storage conditions.

Thermal decomposition / conditions to be avoided:

No decomposition if used according to specifications.

10.3 Possibility of hazardous reactions:-

Reacts with strong acids and oxidizing agents.

10.4 Conditions to avoid:-

No further relevant information available.

10.5 Incompatible materials:-

No further relevant information available.

10.6 Hazardous decomposition products:-

None under normal conditions of storage and use.

11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects:-

Acute toxicity / Values relevant for classification:

Based on available data, the classification criteria are not met.

Skin corrosion/irritation:

Based on available data, the classification criteria are not met.

Serious eye damage/eye irritation:

Causes serious eye irritation.

Respiratory or skin sensitization:

Based on available data, the classification criteria are not met.

Germ cell mutagenicity:

Based on available data, the classification criteria are not met.

Carcinogenicity:

Based on available data, the classification criteria are not met.

Reproductive toxicity:

Based on available data, the classification criteria are not met.

Specific target organ toxicity - single exposure:

Based on available data, the classification criteria are not met.

Specific target organ toxicity - repeated exposure:

Based on available data, the classification criteria are not met.

Aspiration hazard:

Based on available data, the classification criteria are not met.

Additional information:

Based on available data, the classification criteria are not met.

11.2 Information on possible routes of exposure:-

Short Term (Acute) Exposure:

No further relevant information available.

Swallowed:

No further relevant information available.

Eyes:

Causes serious eye irritation.

Skin:

No further relevant information available.

Inhaled:

No further relevant information available.

Long Term (Chronic) Exposure:

No further relevant information available.

<p>Swallowed: Eyes: Skin: Inhaled:</p>	<p>No further relevant information available. Causes serious eye irritation. No further relevant information available. No further relevant information available. No further relevant information available.</p>
<p>11.3 Early onset symptoms related to exposure:-</p>	<p>No further relevant information available.</p>
<p>11.4 Delayed health effects from exposure:-</p>	<p>No further relevant information available.</p>
<p>11.5 Exposure levels and health effects:-</p>	<p>No further relevant information available.</p>
<p>11.6 Interactive effects:-</p>	<p>No further relevant information available.</p>
<p>11.7 Other:-</p>	<p>No further relevant information available.</p>
<p>12. ECOLOGICAL INFORMATION</p>	
<p>12.1 Ecotoxicity:-</p>	<p>No further relevant information available.</p>
<p>12.2 Persistence/degradability:-</p>	<p>No further relevant information available.</p>
<p>12.3 Bioaccumulative potential:-</p>	<p>No further relevant information available.</p>
<p>12.4 Mobility in soil:-</p>	<p>No further relevant information available.</p>
<p>12.5 Other adverse effects:-</p>	<p>No further relevant information available.</p>
<p>Additional ecological information / General notes:</p>	
<p>Water hazard class 1 (German Regulation) (Self-assessment): hazardous for water. Do not allow undiluted product or large quantities if it to reach ground water, water course or sewage system. Rinse off of bigger amounts into drains or the aquatic environment may lead to increased pH-values. A high pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably reduced, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.</p>	
<p>12.6 Other adverse effects:-</p>	<p>No further relevant information available.</p>
<p>13. DISPOSAL CONSIDERATIONS</p>	
<p>13.1 Disposal methods:-</p>	<p>Must not be disposed together with household garbage. Do not allow product to reach sewage system. Residuals must be removed from packaging and when emptied completely disposed of in accordance with the regulations for waste removal. Incompletely emptied packaging must be disposed of in the form of disposal specified by the regional disposer. Disposal must be made according to official regulations. Take to an approved landfill or a waste incineration plant, under conditions approved by the local authority.</p>
<p>14. TRANSPORT INFORMATION</p>	
<p>UN number ADR / IMDG / IATA:-</p>	<p>Void.</p>
<p>UN proper shipping name or technical name:-</p>	<p>Void.</p>
<p>ADR:</p>	<p>Void.</p>
<p>IMDG, IATA:</p>	<p>Void.</p>
<p>Transport hazard class(es):</p>	<p>Void.</p>
<p>Label:</p>	<p>Void.</p>
<p>Packaging group:</p>	<p>Void.</p>
<p>Environmental hazards:</p>	<p>No.</p>
<p>Special precautions for user:</p>	<p>Not applicable.</p>

Danger code:	Void.
EMS Number:	Void.
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code:	Not applicable.
Transport/Additional information:	Product is not classified as a dangerous good for transport.
Hazchem or emergency action code:	Void.

15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance/mixture/product:-

Classified as Hazardous according to the criteria of the National Occupational Health and Safety Commission (NOHSC) approved criteria for the classifying hazardous substances [NOHSC: 1008] 3rd edition.
 Standard for the Uniform Scheduling of Medicines and Poisons.
 Carcinogen classification under WHS Regulation 2011, Schedule 10.
 Notification status in accordance with section 3 and current national legislation.
 HSNO Approval: N/A
 EPA NZ Classes of hazardous properties: N/A

16. OTHER INFORMATION

Key to abbreviations/acronyms used in SDS:-

H304 May be fatal if swallowed and enters airways.
H314 Causes severe skin burns and eye damage.
H319 Causes serious eye irritation.
H400 Very toxic to aquatic life.

Key literature references/data sources used to compile SDS:-

Standard EN420:2003 General requirements for protective gloves: disposable gloves, e.g. nitrile rubber, material thickness 0.1 mm (Australian Standard 2161).
 Long-term exposure (Level 6: < 480 min): protective gloves, e.g. nitrile rubber, material thickness 0.7 mm (Australian Standard 2161).
 Personal eye protection - Eye and face protectors for occupational applications: safety glasses (Australian Standard AS 1336 and AS/NZS 1337.1:2010).

Copyright statement:-

Abbreviations and acronyms:-

ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road).
 IMDG: International Maritime Code for Dangerous Goods.
 IATA: International Air Transport Association.
 GHS: Globally Harmonised System of Classification and Labelling of Chemicals.
 EINECS: European Inventory of Existing Commercial Chemical Substances.
 ELINCS: European List of Notified Chemical Substances.
 CAS: Chemical Abstracts Service (division of the American Chemical Society).
 LC50: Lethal concentration, 50 percent.

LD50: Lethal dose, 50 percent.
 Flam. Liq. 2: Flammable liquids, Hazard Category 2.
 Flam. Liq. 3: Flammable liquids, Hazard Category 3.
 Acute Tox. 4: Acute toxicity, Hazard Category 4.
 Skin Irrit. 2: Skin corrosion/irritation, Hazard Category 2.

Eye Irrit. 2: Serious eye damage/eye irritation, Hazard Category 2.

Repr. 2: Reproductive toxicity, Hazard Category 2.

STOT SE 3: Specific target organ toxicity - Single exposure, Hazard Category 3.

STOT RE 2: Specific target organ toxicity - Repeated exposure, Hazard Category 2.

Asp. Tox. 1: Aspiration hazard, Hazard Category 1.
